

# Simulation Alliance Scientific Meeting

(Hosted by Hong Kong Jockey Club Innovative Learning Centre for Medicine)

**Date** : 4 September 2015 (Friday)  
**Time** : 1830 hrs - 1900 hrs Refreshment  
1900 hrs - 2000 hrs Talks (*CME pending*)  
2000 hrs - 2030 hrs Q&A  
**Venue** : 7/F, Hong Kong Academy of Medicine Jockey Club Building  
**Target Audience** : Members of Simulation Alliance with an interest in Medical Simulation

## Topics and Speakers

### Topic 1: Advances in AV Technology for Simulation

**Dr. Jacky Chan, RN(Training Coordinator), A&E Training Centre, TSKH ; Certified AV System Engineer**

Dr Jacky Chan is an emergency nurse. He completed the Doctor of Nursing at The University of Hong Kong and Master of Prehospital and Emergency Care at The Chinese University of Hong Kong. His research focuses on the debriefing, technical issue and management in the healthcare simulation. He has 10 full paper and abstract published in international peer reviewed medical journals and has edited 2 first aid / trauma textbooks.

Jacky is the Nurse Coordinator of Accident & Emergency Training Centre, Hospital Authority Hong Kong. He has led different teaching teams to design and integrate simulation into clinical training for different specialties doctors and nurses, paramedics, and special units in the Hong Kong Police Force.

In addition, He is also a certified AV system engineer, he was seconded to the Hong Kong Academy of Medicine, the Hong Kong Children Hospital, to support the simulation centre design, construction, AV system and manikin connection design. His setup design included neonatal, pediatric, obstetric, adult (ACLS), ICU (ECMO sim), trauma, escort, disaster and tactical medicine simulation.

### Topic 2: Improving Realism with Moulage

**Dr Benny Cheng, Consultant, Department of Anaesthesia & Intensive Care, TMH/POH, NTWC**

Benny is a consultant anaesthesiologist in Tuen Mun Hospital and Pok Oi Hospital. He has been the chair of Crew Resource Management (CRM) since it was first initiated in New Territories West Cluster. Benny is the director of various courses organized by the Clinical Simulation Committee under the Hong Kong College of Anaesthesiologists, namely Air Crew Resuscitation Simulation (ACRS) Course for the Hong Kong Government Flying Service and Management of Anaesthetic Critical Events (MACE) Course. He is a credential simulation debriefer and he is an active instructor of various simulation courses. Spurred on by a passion for safety culture, Benny and his team are dedicated to team training. Building on over fifteen years of experience in course development and simulation, Benny has successfully immersed CRM in simulation-based training, which facilitates self-reflection among participants and serves as a powerful tool in adult learning model. Benny devotes his time to CRM propagation and quality improvement. He is on the CRM Training Materials and Guidelines Editorial Board and he is a member of Team-Based Simulation Quality and Standards Group. He has led CRM to workplaces via the introduction of in-situ simulation.

**Dr Carmen Lam, Associate Consultant, Department of Anaesthesia & Intensive Care, TMH, NTWC**

Dr Carmen Lam is an associate consultant from department of Anaesthesia (NTWC) and Intensive Care Unit at the New Territory West Cluster of Hospital Authority. She is member of Crew Resource Management (CRM) Committee and mock-up team member of In-Situ Simulation Subcommittee at NTWC. She has interest in medical moulage and is actively providing medical moulage for realism in various simulation courses e.g. CRM workshop at NTWC, Air Crew Resource Simulation (ACRS) course co-organized between Hong Kong College of Anaesthesia (HKCA) and Government Flying Service (GFS) and in-situ drills.
